LEADING BY EXAMPLE

Platinum DB Consulting, Inc. (PDB) is a certified SAP consulting and services partner and an Oracle Gold partner that has been delivering high-quality services and solutions globally since 1999. Over 100 Fortune 500 companies operating in North America, Asia Pacific and Latin America have placed their trust in PDB professionals to deliver innovative solutions to the most challenging Enterprise Project and Portfolio Management (EPPM) and Product Lifecycle Management (PLM) problems.

PDB offers Business & Technology Services, Education, Training, & Value Added Solutions.

- Business Services: Consulting / Assessments/Functional Implementation/Hosting
- Technology Services: Development /System Integration/Support
- Education and Training: Vendor Courses/Custom Knowledge Transfer/Change Management
- Value Added Solutions: Industry/Domain/Application

FEATURED SOLUTIONS

SAP Desktop Analyzer™ for Excel: Provides an Excel front-end to SAP's Portfolio and Project Management module, allowing users to update and analyze large quantities of data quickly and easily.

Enterprise Project Planning Solution using BPC and PPM: Facilitates the accelerated implementation (under 8 weeks) of the end-to-end business process, which is delivered with preconfigured functionality. The solution includes a proven Business Process Flow that will enable you to accurately govern project investments and provides „What-if“ scenarios to facilitate improved budgeting, forecasting and estimating. In addition, you will be able to immediately benefit from improved decision support by leveraging the provided reporting and analytics content.
